UNIVERSITAS
ISLAM
INDONESIA

EXTENDING GLOBAL OUTREACH

Enshrining values
Enhancing innovations
Enriching benefits

Message from the Rector

WELCOME TO UNIVERSITAS ISLAM INDONESIA

Universitas Islam Indonesia (UII) is one of the leading private universities in Indonesia. Inspired by the spirit of nationalism and guided by perennial values, UII was founded one month before the proclamation of Indonesian independence in 1945. UII now has grown into a great place for learning. Located at the northern outskirts of Yogyakarta, the heart of Javanese culture, the main campus, overlooking the stunning beauty of Merapi, is a perfect place to study.

Learning is discovering treasure within oneself. With 5 doctoral, 12 master, 3 professional, 26 undergraduate, 3 applied degree and 1 diploma programs covering a wide spectrum of knowledge, UII enables its students to discover their own treasures and achieve their brighter future.

We realize that perfection is a fruit of lifetime innovations and tireless efforts. Internally, this is carried out by providing modern facilities and maintaining quality assurance. To support the learning process, 10 libraries, 82 laboratories, and 27 research centers, are provided for research and education. Meanwhile, a great masjid, bookstore, sport hall, auditoriums, hospitals, and student convention center are among first-rate facilities available in UII campuses.

To ensure that learning in UII is conducted with the highest standard, quality is put firmly in place. As a result, the national rankings place us as number 1 for private universities in Indonesia and among the leading universities nationally (2018). The QS Asia University Rankings place us among top 500 in Asia (2019).

The fruits of innovation are diverse. More than 98,000 UII alumni are serving Indonesia and the world at large in many fields and many ways while maintaining professionalism and ethical values, to which UII vision is anchored.

Prof. Fathul Wahid, S.T., M.Sc., Ph.D.
Rector

With more than 70 years of experience, UII is strongly rooted in the tradition of academic freedom, where the diversity of thoughts is highly respected. With a vibrant learning environment and a flair for innovation, we are committed to nurturing our students to be innovative global leaders.

TOLERANCE & HARMONY: HINDU TEMPLE IN ISLAMIC UNIVERSITY

Kimpulan Temple (also known as Pustakasala temple) is a ninth to tenth century Hindu temple located in UIN Main Campus area. The temple was accidentally discovered on 11 December 2009 during land excavations to lay foundations for the construction of the new university main library. Kimpulan Temple was buried about five metres underground.

University at a Glance

PIONEER OF HIGHER EDUCATION IN INDONESIA

The passion to establish a higher education institution in Indonesia that would provide students' with outstanding academic background along with Islamic knowledge started even when the nation was born. In 1945, a general assembly meeting of the Masjoemi (Majelis Sjoero Moeslimin Indonesia) was held. The meeting was attended by some of the leading political figures of the day including Dr. Mohammad Hatta (the first Vice President of Indonesia), Mohammad Natsir, Mohammad Roem, and Wachid Hasyim. One of the decisions of this meeting was the establishment of Sekolah Tinggi Islam (STI – Islamic Higher School) by those leading figures, who became the institution's founders.

UIN was founded in 8 July 1945 and became the pioneer of national higher education in Indonesia. Initially UIN had four faculties: Religion, Law, Education, and Economics. UIN was forced to close due to the Dutch military invasion in 1947. Many students and staff members joined the Indonesian military force to repel the Dutch invasion. In the early 1950s, shortly after the war, UIN had to move its classes from place to place around the city of Yogyakarta, even using part of the Sultan's Palace and some of the faculty members' houses as classrooms.

UIN had undergone improvements between 1961-1970 under the leadership of Prof. Mr. R.H.A. Kasmat Bahuwinangun (1960-1963) and Prof. Dr. dr. Sardjito (1964-1970). During his term in office, UIN develop Faculty of Islamic Studies and Faculty of Tarbiyah as well as expanding to Purwokerto to establish The Faculty of Law and Shari'a.

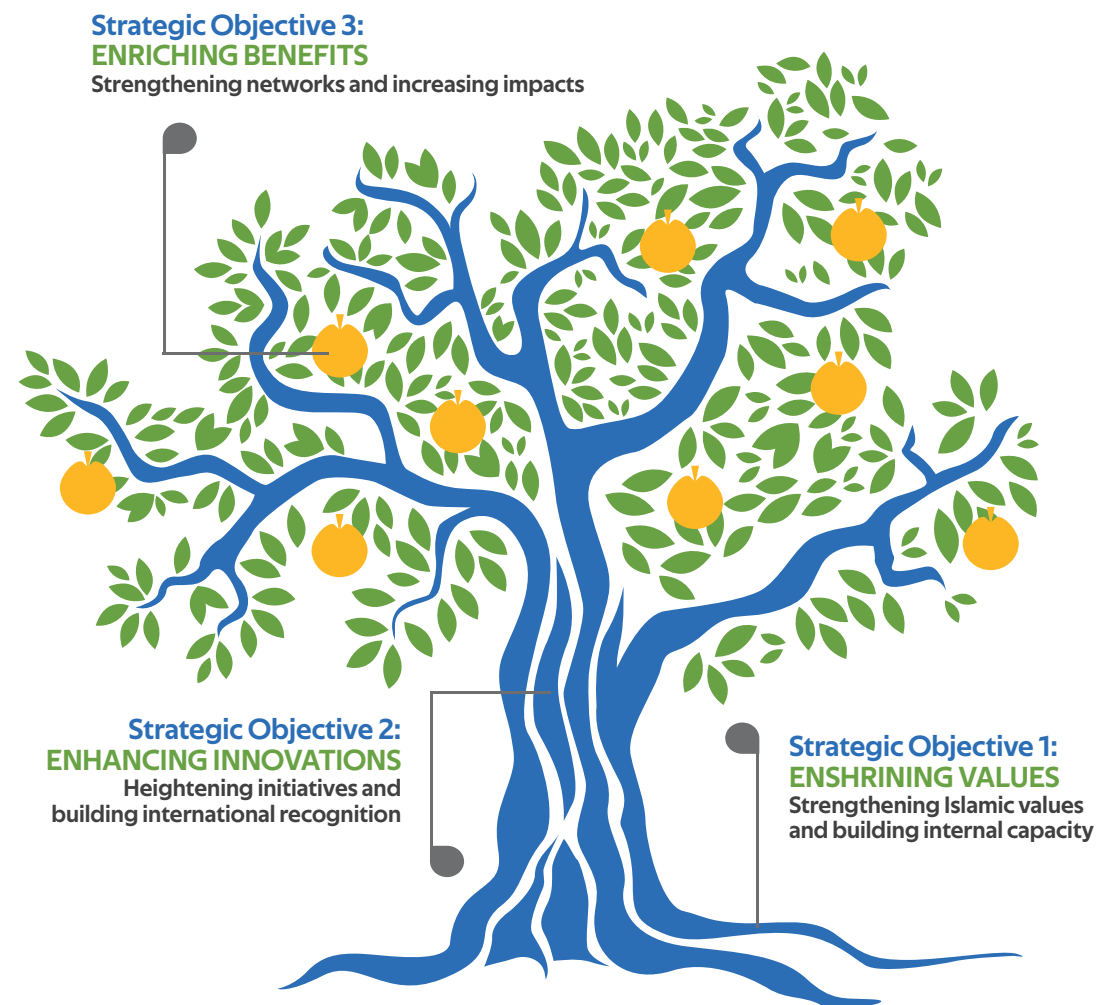

From 1964 to 1970, under the leadership of Prof. Dr. dr. Sardjito (a leading medical doctor in Indonesia), UIN expanded to 22 faculties, five located in Yogyakarta and the rest were scattered in four provinces: Central Java (Solo, Klaten, and Purwokerto); East Java (Madiun); West and North Sulawesi (Gorontalo). The areas of study offered were Economics, Law, Islamic Law (Syari'ah), Islamic Education (Tarbiyah), Engineering, Medicine, Veterinary Medicine, and Pharmacy. However, when government regulations prevented UIN from maintaining educational activities outside Yogyakarta, UIN had to close its branch campuses. Some of them became associated with local institutions.

In the early 1970s to 1982, UIN saw extensive physical development of its offices and faculty buildings, followed by the construction of three other campuses located throughout the city. Since 1990, UIN has located its new main campus at Kaliurang km 14.5 Yogyakarta. Built on 35-hectare of land, our campus standing on a hillside become the largest and the most stunning in the north side of Yogyakarta.

PURSuing BRIGHTER FUTURE

The Strategic Direction 2018-2022 set by the Board of UII Waqf Foundation mandates the development of universities that are directed to enhance international reputation/recognition which is built on competitive advantage (innovation), quality management, and organizational values that are based on four institutional capabilities: leadership, resources/capital, content, and process/system. The main theme that frames the UII Strategic Plan 2018-2022 was inspired by the Qur'an, Q.S. Ibrahim (14) 24-25.

“[24] Have you not considered how Allah presents an example, [making] a good word like a good tree, whose root is firmly fixed and its branches [high] in the sky?
[25] It produces its fruit all the time, by permission of its Lord. And Allah presents examples for the people that perhaps they will be reminded.”

The University Management 2022-2026

VISION

Universitas Islam Indonesia aspires to become a mercy for all humankind, an internationally recognized university committed to perfection and Islamic values in the field of education, research, community service, and *da'wa*.

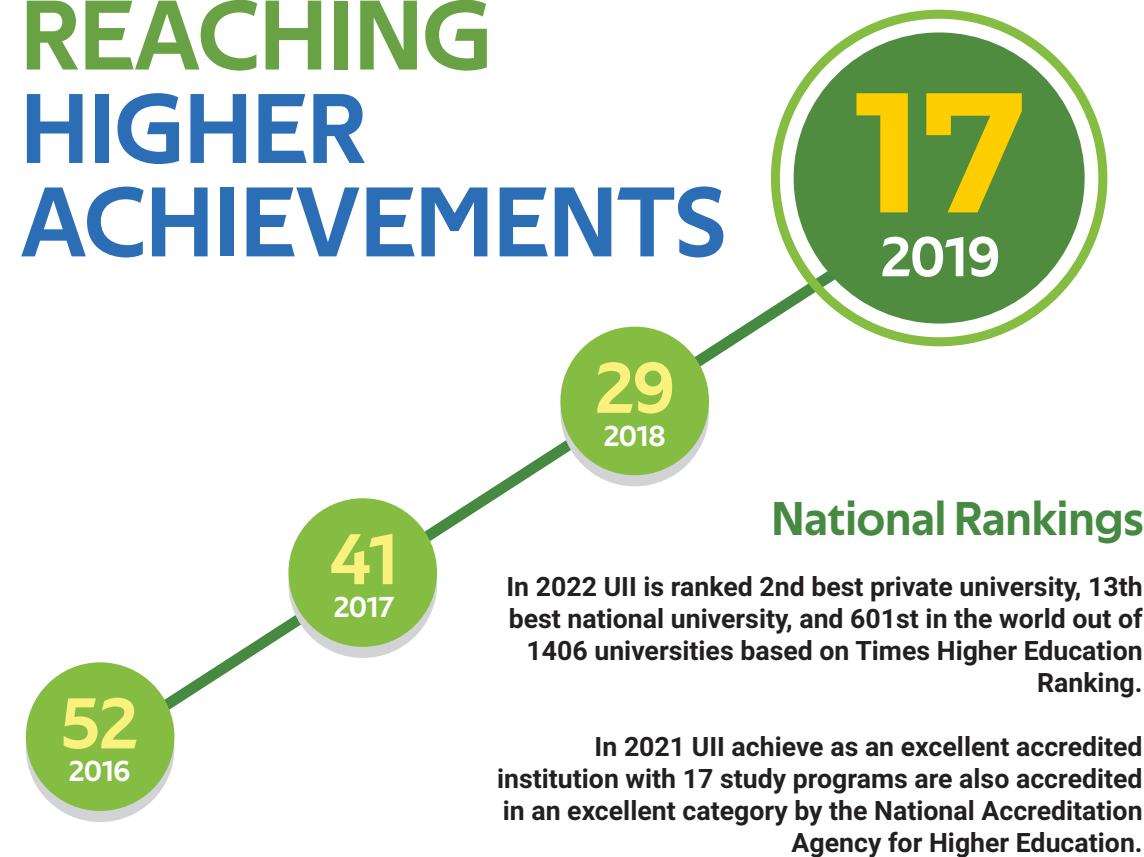

MISSION

Upholding Qur'an and Sunnah as the absolute source of truth and blessing for all humankind, and supporting Indonesia's noble and sacred ideals in nurturing the nation's intellectual life through the effort of:

- Generating devoted, ethical, and skillful muslim scholars;
- Developing and disseminating science, technology, and arts guided by the Islamic values;
- Building a fair and prosperous society blessed by Allah, based on Pancasila and the Constitution;
- Comprehending, developing, and spreading the Islamic teachings to be lived and practiced by the university members and the society at large.

Institutional Awards & Accolades

We are proud to be recognized as one of the leading universities in Indonesia, through our commitment to continuously improve the quality of education, we believe that UII is on the right path to achieve a bright future

Three Stars in 2021

QS University Ratings 2016-2021.
Five Stars in social responsibility, facilities, inclusiveness, and employability

Asia Rankings in 2021

QS Asia University Rankings 2021.
(501-550)

The exceptional support of students, lecturers and staff has helped UII earn several awards and accolades over the past decade:

Year	Awards/Accolades
2021	Gold Winner on Entrepreneurial Campus Award in a category of Academic Campus by MarkPlus Inc.
2020	QS Asia University Rankings in 2020 (501-550)
2019	The best private university in Indonesia based on community services performance by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia
2019	17 th National Ranking of the Non-Vocational HEI category by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia
2019	Listed among the Top 500 Asia Universities in the QS Asia University Ratings 2019 (451-500)
2019	Yogyakarta Cultural Award for UII's commitment in preserving a Hindu temple in the campus area as a cultural heritage and a symbol of tolerance in diversity
2018	The Best Private University in Indonesia by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia
2018	The Most Sustainable Private University in Indonesia by UI Green Metrics World University Rankings
2017	The best private university in Indonesia based on research performance and community services performance by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia
2017	Institutional Accreditation by the National Accreditation Board (BAN-PT) with excellent grade (A)
2016	Three Stars Institution by QS University Ratings 2016-2019
2016	Green Awards with the category of Green Campus by La Tofi School of CSR
2015	Top 10 of the best national universities in management and organizational quality by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia
2014	Green Awards with the category of Green Campus by La Tofi School of CSR
2013	Institutional Accreditation by the National Accreditation Board (BAN-PT) with excellent grade (A) and achieving the highest score among private universities in Indonesia
2012	Green Awards with the category of Green Campus by La Tofi School of CSR
2010	Top 10 national universities in management and organizational quality by the Ministry of Research, Technology and Higher Education of the Republic of Indonesia

DISCOVERING JOGJA, YOUR SECOND HOME

Tugu Yogyakarta. Photo: www.traveloka.com

While Jakarta is the capital city of Indonesia especially for central governance and business hustle, Yogyakarta is the country's “capital” of education, culture and arts. With its long history of civilization, Yogyakarta is a vibrant center for contemporary culture as well as classical arts.

Yogyakarta, or also known as “Jogja”, is an exciting and comfortable place to study. Life runs in a quiet and subtle way with the gentle touch of Javanese culture which seems to dominate the city. Students can easily find convenient places to meet with friends, held a study group, or attending various public events such as seminars, festivals and arts performances. The city also provides various facilities to support the learning needs of students such as the city library, bookstores, internet cafes, copy centers and stationeries. To enjoy a relaxing time on the weekend, you can visit the shopping center, cinemas, and a variety of entertainment and fun hangout places. Wherever you come from, you will find and feel Yogyakarta as your second home.

Direction to UII Main Campus

-  **15 km (± 30 minutes)**
from Adisutjipto International Airport
-  **52 km (± 1 hour 30 minutes)**
from New Yogyakarta International Airport
-  **15 km (± 40 minutes)**
from Yogyakarta Tugu Train Station
-  **24 km (± 30 minutes)**
from Giwangan Bus Station
-  **14 km (± 25 minutes)**
from Jombor Bus Station

Accommodations

Home of over one hundred higher educational institutions, with student coming from all over the country and abroad, Yogyakarta is a great “campus” for multi disciplinary scientific discourses and cross-cultural interactions. Such a dominant presence of students influences the cost of living in Yogyakarta, which is relatively inexpensive compare to the living cost in other major cities in Indonesia.

We understand that proper accommodation plays an important role in supporting the comfort of living and academic success for our students. A wide choice of boarding or rented house with variety of rental rates and facilities can be found easily around campus UII. Affordable accommodation is another reason why people choose this city for studying and living.

On-Campus Accommodation

Accommodation facilities owned by UII currently provided for students receiving scholarships from Pondok Pesantren UII and used interchangeably for religious training activities (PNDI and LKID). These campus accommodation are located in two locations as follows:

- **Pondok Pesantren UII Putra (Male Students Boarding School)**, located in Jl. Selokan Mataram, Condongcatur, Depok, Sleman, Yogyakarta. This campus dormitory has 33 rooms which accommodate 66 students. The location of this dormitory is close to the downtown, with a range of 2 km distance to Campus Condongcatur (Faculty of Economics), approximately 9 km to Taman Siswa Campus (Faculty of Law), and approximately 14 km to the Main Campus.
- **Pondok Pesantren UII Putri (Female Students Boarding School)**, located in UII Main Campus, this student dormitory provides 24 rooms with a capacity of 60 students.
- **UII Student Dormitory**, located in UII Main Campus and currently used as a temporary boarding facility for conducting Pesantrenisasi for new students, and other religious training activities. UII student dormitory has a total of 48 rooms with the capacity approximately 300 people.

Malioboro Street. Photo credit: www.spotunik.com

Off-Campus Accommodation

There are many accommodation facilities are available around UII campus. Students can choose to rent a room (kost), or rented house with several rooms that can be shared with a few friends. Off-campus accommodation fees are vary depending on location and amenities provided.

To get more information about off-campus accommodations, students can visit and see directly the various facilities available.

Support Facilities

Transportation

In addition to convenient access from other major cities through Adisutjipto International Airport, Tugu and Lempuyangan Train Stations, as well as Giwangan and Jombor Bus Stations, Yogyakarta also has reliable city transportation. Students can easily access the city bus transportation (Trans Jogja), using motorcycle taxi (ojek) or calling for a cab. However, private motorcycles and cars are the most widely used by students.

Food

Various kinds of amenities at affordable prices can be found easily throughout Yogyakarta at stalls, mini markets, malls or even the local traditional markets. Food can also be found without difficulty at street food stalls, cafes, and

restaurants. Asides from providing Yogyakarta traditional cuisine, various traditional dishes from all over Indonesia and international cuisine are also available.

Study Support Facilities

Various support facilities such as telecommunications, libraries, book stores, photocopy centers, computer stores, and electronic peripheral stores are available in Yogyakarta. Postal delivery and international fund transfer will not be a problem as post offices and banks can be found in every subdistrict.

To escape from routine academic activities, Yogyakarta offers many recreational options, shopping destination, and beautiful temples and beaches to visit.

Research & Teaching

IMPACTFUL RESEARCH & INSPIRATIONAL LEARNING

UIN made the research and community service as part of the focus of strength and excellence in realizing UIN purpose of providing benefit to society (rahmatan lil 'alamin). A strong commitment and hard work has led us won the award for private universities with the best research performance in Indonesia in 2016 and 2019.

Universitas Islam Indonesia has a number of research centers and studies focusing on various fields of science that aims to continuously improving innovation. Our researches is managed by the Directorate of Research and Community Services (DPPM) which responsible to coordinate, implement, monitor and assess the university researches and community service programs.

Joint Research

As a commitment to participate actively in the development and dissemination of science and technology, Universitas Islam Indonesia continues to encourage research facilitated through various laboratories and research centres. You can join our experts in developing joint research and use shared resources to produce progress and novelty in science and technology that can provide extensive benefits to society and the world.

RESEARCH CENTRES

Some of our leading research centres are as follows:

- f Centre for Earthquake Engineering, Dynamic Effects, and Disaster Studies
- f Centre for Climate Change and Disaster Studies
- f Centre for Environmental Technology Studies
- f Centre for Information and Transportation Studies
- f Centre for Flood and Drought Studies
- f Disaster Risk Reduction Centre
- f Merapi Volcanic Material Innovation Centre
- f Centre for Islamic Medicine Studies
- f Center for Islamic Bioethic and Islamic Health Law
- f Centre for Gender Studies
- f Centre for Human Rights Studies
- f Centre for Indonesian Marketing Studies
- f Centre for Forensic Accounting Studies
- f Centre for Economics and Business Statistics Training
- f ERP Competence Centre & ERP Learning Centre
- f Centre for Indonesian Family Business Studies
- f Centre for Humanity and Behavior Studies
- f Centre for Natural Fibres and Natural Dyes Studies

LABORATORIES

UIN has 58 laboratories under management of the study programs and integrated laboratory managed by the university that has been accredited to ISO 17025. Some of our primary laboratories are as follows:

- f Architecture Design Laboratory
- f Digital Architecture Laboratory
- f Building Technology Laboratory
- f Air & Water Quality Laboratory
- f Environmental Biotechnology Laboratory
- f Environmental Risk Analysis Laboratory
- f Waste, Hazardous and Toxic Materials Laboratory
- f Structure & Engineering Mechanics Laboratory
- f Highway & Transportation Engineering Laboratory
- f Soil Mechanics Laboratory
- f Industrial Metrology and Instrumentation Laboratory
- f Mechatronics Laboratory
- f Energy Conversion Laboratory

Visiting Professor & Teaching Collaboration

VISITING PROFESSOR

We open up opportunities for professors and experts from partner institutions to collaborate with us in nurturing and developing young minds at UIN and contribute to the wider community through various activities such as public lectures, community development, or other training programs.

This opportunity is not only open to academics, but also for professionals in business and industry, as well as government officials both at the regional, national and international level.

INTERNATIONAL TEACHING COLLABORATION

UIN continue to encourage lecturers to improve their quality of teaching through various training for capacity building and supporting the international teaching collaboration program.

This program is organized every year through a competitive grant scheme that may be submitted by UIN faculty to be able to carry out lectures in collaboration with professors and experts from our international partners.

Double Degree & Student Exchange

ENRICHING GLOBAL EXPERIENCE

Student Exchange Programs at UII

We welcome inbound exchange students from more than 50 universities worldwide. We also encourage outbound exchange programs for current students to study at one of our international partner institutions.

This program enable students to gain international experience and earn credit for their degree while traveling the world. It also allows them to improve their confidence, broaden their horizon, become more independent, and make friends all over the world!

We have developed partnerships with partner universities around the world to provide opportunities for student and staff exchanges. Following are some of our partner universities:

- University of Queensland, Australia
- Saxion University of Applied Sciences, the Netherlands
- Zhejiang University, China
- SolBridge International School of Business, South Korea
- Yongsan University, South Korea
- Universiti Sains Islam Malaysia (USIM), Malaysia
- University of Malaya, Malaysia
- Universiti Putera Malaysia (UPM), Malaysia
- International Islamic University of Malaysia (IIUM), Malaysia
- Fatih Sultan Mehmet Vakif University, Turkey
- Wismar University of Applied Sciences, Technology, Business and Design, Germany
- Mahidol University, Thailand
- Mapua University, Philippines

Double Degree Programs at UII

Universitas Islam Indonesia (UII) has signed international partnership agreements with a number of reputable universities in overseas. Some of the partnerships emphasize on academic activities, which is Double Degree program. This program provides opportunities for UII students to continue their study to partner universities in overseas with the scheme options:

- a) 3 years at UII and 1 year at UII partner university in overseas (3+1)
- b) 2 years at UII and 2 years at UII partner university in overseas (2+2)
- c) 2 years at UII and 1,5 years at UII partner university in overseas (2+1,5)
- d) 1 years at UII and 1 years at UII partner university in overseas (1+1)

Study Program at UII	Degree Name	Scheme	Partner University	Country
Management (UP)	Bachelor of Business Management (BBM)	2+1,5	University of Queensland	Australia

(UP) Undergraduate Program; (MP) Master Program

International Mobility Program

BECOMING GLOBAL CITIZENS

Aspiring to be a world-class university, UII develops extensive networks with prominent universities across the world. At this moment, UII has many active international partners that collaboratively develop various mobility programs.

P2A Green Growth and Eco-Innovation

Universitas Islam Indonesia, Telkom University, and Mapua University jointly held a passage to ASEAN (P2A) virtual journey program with the theme "Green Growth and Eco-Innovation" on September 3-28, 2020. The P2A virtual journey was designed to enrich students' school life experiences, deepen students' cross-cultural skills & global mindset, build student relationships and strengthen students' global awareness. This program was participated by 50 students from the three institutions.

Tailored Programs with Nanjing Xiaozhuang University, China

UII and Nanjing Xiaozhuang University (NXU), China, have collaborated on some online tailored short programs implemented in 2021, such as 'Design Thinking in Education,' conducted on 9-19 July 2021, and 'Global Outreach Program between China and Indonesia.' These programs were credited programs in NXU, aimed to provide students with global experiences related to Indonesia's language and culture, introduction to Indonesia and Yogyakarta, several thematic class sessions, virtual visits to tourist objects, and Indonesian foods. The two programs were participated by 30 students from some study programs at NXU.

Summer Camp: Indonesian Heritage Story

Indonesia has been known for its unity in diversity. This unique legacy is being nurtured by its society, having a lot of diversity of culture, beliefs, traditions, languages, arts, and typical buildings. The rich of culture of Indonesia inspired Universitas Islam Indonesia (UII) to develop a short program on the topic "Indonesian Heritage Story (IHS)" that provided opportunities for the participants to learn and experience in-class and outdoor activities regarding the topic.

The IHS 2022 targets international students to study in Indonesia at a certain time, especially the ones who visit Indonesia for the very first time. We expect that the IHS 2022 will be their "First Door" in visiting Indonesia so that they will have a brief experience and overview of Indonesia.

In line with the theme "Preserving Our Heritage," this program is designed to invite the participants to look at their neighborhoods and preserve the cultural heritage that we have in our home country. This offline program was successfully implemented on 2-5 August 2022, and participated by 20 students from Malaysia, the United Kingdom, Vietnam, and the Philippines.

Match Your Goals: Tailored Mobility Program

Program Duration & Fees

The length duration of the mobility program can be customized. Our default program schedule and duration will be around 2 (two) weeks including flights (arrival and departure) and **10 full-days program**. Approximate fees: **USD \$1,200**

Includes: accommodation, group transportation (for scheduled activities), academic program, language courses, and meals. The amount of fees is subject to change and does not include flight, airport tax and visa.

Thematic Lectures

Topics of lectures offers to students who participate in UII mobility program will be related to Islamic, Indonesia, and/or global issues and covers a very diverse discussion. However, this program can be customized to suit the focus of learning required by partner institutions. Here are some topics of lectures that we provide for our previous mobility programs.

LECTURE TOPICS	RESOURCE PERSON
Islamic Thought & Civilization	Supriyanto Abdi, S. Ag, M.CAA.
Islamic Law	Dr. Agus Triyanta
Islamic Business & Economics	Nur Kholis, M.Sh. Ec.
Islam & Media	Prof. Dr. Edy Suandi Hamid, M.Ec.
Islam & Culture in Indonesia	Dr. Revianto Budi Santosa, M.Arch.
Islamic Social & Political Movement in Indonesia	Prof. Jawahir Thontowi, S.H., Ph.D.

Resource person who will give a lecture on this program is professors, experts, leaders, and practitioners, both from UII or professionals. The names listed in the above table may change depending on the program schedule and lecture topics to be delivered.

Field Trips

Students will be invited to visit some historic masjid in Yogyakarta, offices of Islamic organizations, and also enjoy a weekend in some of the famous cultural and tourist sites as part of a field trip series in the program. Here are some sites in Yogyakarta to visit during the mobility program.

- Masjid Gedhe Yogyakarta
- Masjid Syuhada Kotabaru
- Muhammadiyah Central Board Office
- Nahdlatul Ulama Regional Office Yogyakarta
- Pondok Pesantren Al Munawwir Krapyak
- Borobudur & Prambanan Temple
- Kraton Ngayogyakarta - Sultan's Palace
- Lava Tour Kaliurang - Merapi Volcano
- Ramayana Ballet - Prambanan Temple

Short Internships

Internship activities will be followed by students in the last week of this program. Internships will be held for 2-4 days (depending on the program design/requirement) in several local institutions partnered with UII. After completing the internship activities, field trips, and lectures, students in groups will be asked to give a presentation on what they have learned during the program.

There are several company/institutions which will be the internship sites for participants of this program, including as follows:

- Bank Mandiri Syariah - Yogyakarta
- Bank Muamalat - Yogyakarta
- Budi Mulia Dua Foundation
- Yayasan Pesantren Islam Al-Azhar
- Republika Newspaper - Yogyakarta
- Arah Dunia Televisi - Local TV Station

Global Projects & Initiatives

DEVELOPING GLOBAL CAPACITY

Ull has been involved in several strategic initiatives and global projects with various partners in Europe through Erasmus+ CBHE program in the past few years. Our projects addressing key focus areas that allow us to promote improvement on research quality and performance, lead meaningful change in developing entrepreneurship, and addressing issues on disaster resilience.

Ull on Erasmus+ Projects

iHiLead - Indonesian Higher Education Leadership (2021-2024)

The Indonesian Higher Education sector is facing significant change as it moves from a phase of expansion as it has increased access to a greater proportion of the population, to one where the focus is on enhancing the quality of that education. This project is developed in response to a clearly identified need for the development of leaders and managers in the Indonesian Higher Education sector. The framework, and leadership development network and its associated programme will focus on addressing the development needs of academic and non-academic managers, at all levels, who have responsibility for driving or responding to structural changes in the higher education sector in Indonesia. This ensures that the leadership and management development opportunities developed through the project will be appropriate and of value for the full range of Indonesian HEIs.

Program & partner universities: University of Gloucestershire; Universidad de Granada; Mednarodna Fakulteta za Družbene in Poslovne Studije Zavod; President University; STIE Malangkececwara; Universitas Ahmad Dahlan; **Universitas Islam Indonesia**; Universitas Padjajaran; Universitas Negeri Semarang; Universitas Brawijaya; Universitas Negeri Semarang.

ANGEL - ASEAN Network for Green Entrepreneurship and Leadership (2021-2024)

ANGEL is a project funded by the Erasmus+ Programme of the European Union. ANGEL's goals are to address green entrepreneurship and transformational leadership and social innovation challenges, and to build a high calibre network of effective and efficient green entrepreneurial leaders that uphold ethics and good governance and are able to connect with the local/regional/international market ecosystem with a multiplier effect in the ASEAN region.

The consortium consists of 16 institutions from Cambodia, Greece, Indonesia, Lao People's Democratic Republic, Malaysia, Vietnam, and Cyprus with the names of institutions are as follows: Research Innovation and Development Lab, Hellenic Open University, Centre for Social Innovation, European University Cyprus, Universiti Tun Hussein Onn, Universiti Malaysia Kelantan, Savanakheth University, Champasak University, Universitas Gadjah Mada, **Universitas Islam Indonesia**, University of South East Asia, Hanoi University of Mining & Geology, Can Tho University, Institute Technology Cambodia, Royal University of Phnom Penh, and Universiti Teknologi Malaysia.

REPESEA - Assessing and Improving the Research Performance at South East Asian Universities (2016-2019)

Building research and innovation capacities is a challenging task and the current project will address this task within the cooperation network of Asian and European partners. The research capacities will be developed at partner higher education institutions in Malaysia, Indonesia and Thailand through the creation and implementation of the System of the Assessment of Quality and Impact of Research and the development and the introduction of self-contained transferable research skill training modules. The diversity of partner higher education institutions involved in the project (public vs. private, research vs. teaching focused, traditional vs. new, located in the capital city vs. in rural areas, focused on social vs. technical sciences, located in high income vs. medium/lower income countries) allows for addressing the research capacity building goal from diverse perspectives and for achieving necessary synergies in the partnership. The transfer of the best practice and knowledge in the area of research capacities in both ways will provide additional value added for European partners.

Program & Partner Universities: University of Economics in Bratislava; Matej Bel University in Banská Bystrica; Warsaw School of Economics; University of Bath; University of Clermont Auvergne; Universitas Gadjah Mada; **Universitas Islam Indonesia**; International College, Burapha University; International College of National Institute of Development Administration (ICO NIDA); Universiti Teknologi Malaysia; Universiti Teknologi MARA

GITA - Growing Indonesia: a Triangular Approach (2017-2020)

With a population of over 260 million, Indonesia is Southeast Asia's largest economy and the world's fourth most populous nation. Current support for start-ups is fragmented and there is a need for a more coordinated approach by educational institutions, government bodies and industry in building Indonesia's entrepreneurial capacity and in reducing reliance on foreign labour as well as outward economic migration. This project is aimed at embedding entrepreneurship education into University curricula and at creating Growth Hubs across Indonesia. These hubs are physical spaces with an incubation facility for cultivating innovation and exploiting new ideas applied to the local and regional economies.

Program & Partner Universities: University of Gloucestershire; Dublin Institute of Technology; Fachhochschule des Mittelstandes (FHM) Germany; University of Innsbruck; Universitas Padjajaran; **Universitas Islam Indonesia**; President University; Universitas Ahmad Dahlan; Universitas Negeri Semarang; Universitas Brawijaya; STIE Malangkececwara

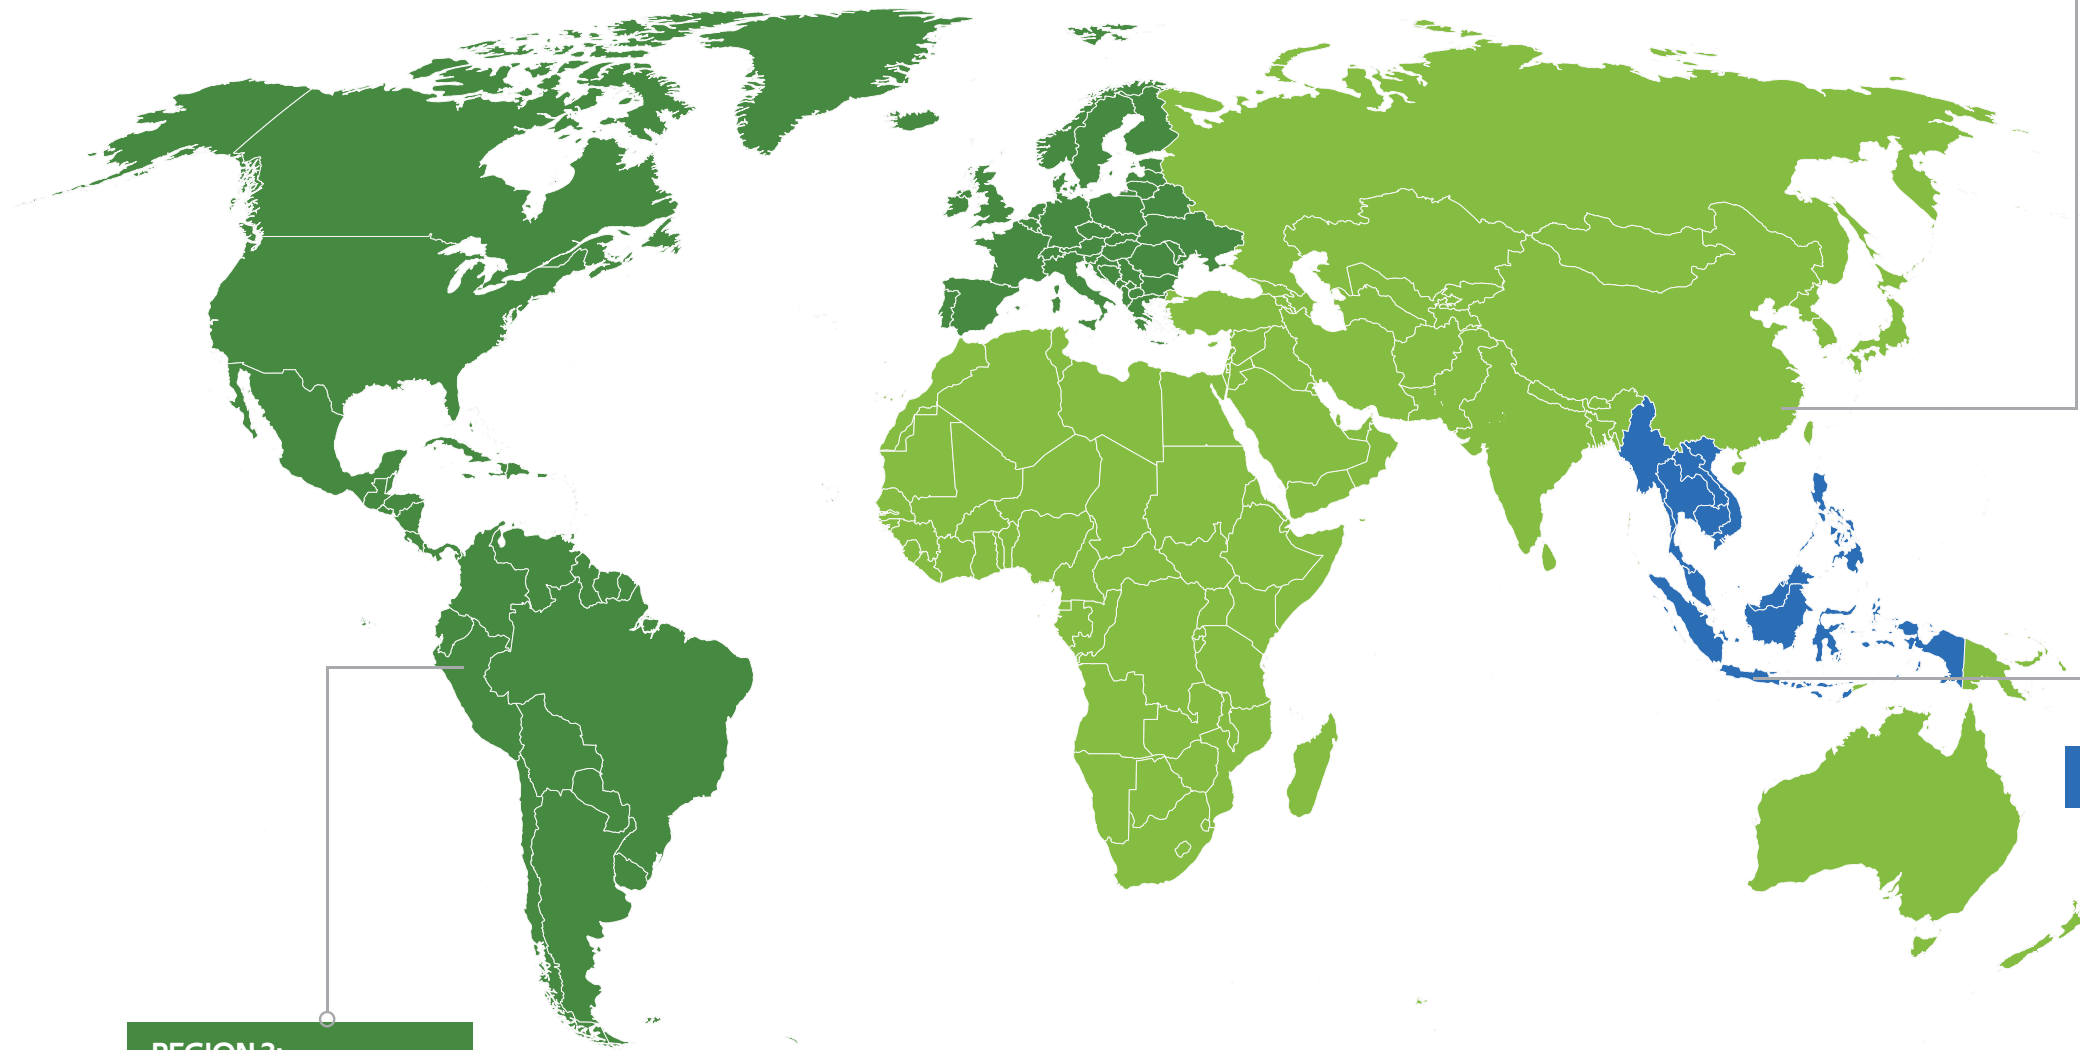

BUiLD - Building Universities in Leading Disaster Resilience (2019-2022)

The project aims to create a Centre of Excellence in Disaster Resilience in each participating Indonesian university. These centres will oversee the implementation of a comprehensive Disaster Resilience Framework within the respective institutions. This framework integrates resilience capacity building at multiple levels, including the individual, programme, institutional and national level. It addresses several aspects of resilience capacity-building, including university governance, disaster response and recovery capability, disaster awareness training, curriculum development, internal and external information exchange and knowledge transfer as well as fundraising. Through this, one of the project objectives is to increase the attractiveness of disaster resilience education and career development in order to build future research, innovation and leadership capacity.

Program & Partner Universities: University of Gloucestershire; Institute Polytechnic Porto; University College Copenhagen; Hafelakar; **Universitas Islam Indonesia**; Universitas Ahmad Dahlan; President University; Universitas Andalas; Universitas Khairun; Universitas Muhammadiyah Palu; Universitas Surabaya; Universitas Lambung Mangkurat

Why partner with us?

Aspiring to be a world-class university, UII develops extensive network with prominent universities. Until now, there are more than 123 partners, both national and international institutions, which have established collaborations with UII to develop various programs in teaching, research and community services. Our international partners are reputable institutions from more than 12 countries across continents in the world.
